

DEODORANTS – Water Based/Water Soluble

DESCRIPTION

These formulations are proprietary concentrated blends of malodor counteractants and fragrances designed to deliver maximum odor neutralizing capabilities. These products are designed to work in applications where solvent based products are inappropriate. Add these products directly to the cleaning solution at a ratio of 30:1 for maximum odor control. These products can also be used as a topical spray treatment when applied through a garden type sprayer or hand trigger sprayer. For best results as a topical spray treatment, use these products in an electric ULV fogger for complete deodorization of carpets, fabrics, cars, boats, bathrooms, kitchens, garbage bins, and dumpsters. Each of these deodorant products contains quats for long lasting deodorization power.

INSTRUCTIONS

For use in cleaning solution to control mild odor problems, add 2-4 oz. of product per each gallon of water. For moderate odor problems, add 4-8 oz. of product to cleaning solution. For severe odor problems, add 8-10 oz. of product to cleaning solution. For use as a topical spray treatment, mix product 1:10 with water and apply with a trigger sprayer or electric atomizer. Dilution ratio may require adjustment according to severity of odors

FEATURES

- Provides maximum odor control
- Serves as a booster to cleaning solution
- Totally biodegradable
- Contain natural organic oils
- Contain mal odor counteractants

SPECIFICATIONS

Appearance:	Clear Liquid	pH:	Neutral
Odor:	Various Fragrances	Biodegradable:	Yes
Specific gravity:	0.994	Detergency:	Moderate
