

Pet-Zyme

Enzymatic Kennel/Stable Cleaner

Bio-Enzyme

Description

A revolutionary enzymatic cleaner for the animal industry. Pet-Zyme is a 3 in 1 product that will save you money and improve your Kennel/Stable appearance immediately and it will continue to work around the clock. This product is formulated with patented enzymes that will devour any urine, vomit, or feces particulate left behind by other cleaners. Pet-Zyme will devour all the residual organic materials down in the cracks, crevices, and pours of your floors. After normal cleanings and mopping pour your dirty mop water down your floor drains. Pet-Zyme will still keep working deep down in your drains to eliminate any build up and malodors in your drains.

Directions for Use

Kennel/Stable Floors and walls: Mix 2-4 ounces of product with one gallon of water to remove animal organics.

Apply liberally to the surface to be cleaned by mop, pump-up sprayer, foam gun, brush, or auto scrubber. Agitate and allow to air dry. **DO NOT RINSE.** Dump unused mop water solution down the drain.

Safety Cautions

- Keep out of reach of children
- Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

Features & Benefits

- Enzymes devours organic residues
- Attacks the source of foul odors deep in cracks and crevices
- Keeps drain lines clear when mop water is poured down the drains
- Concentrated and Economical
- Great Lavender fragrance left behind
